the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Youn whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Live: Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harm less, gentle, yet amazing in making bile flow. less, gentle, yet amazing in making bile f freely. Ask for Carter's Little Liver Pills name. Stubbornly refuse anything else.

#### BRUINS CRACK LOSING STREAK BEAT RANGER.

New York, Feb. 17.-(AP) While the champion Detroit Red Blackburn , .. 151 184 176-511 Wings and speedy Montreal Ca- Peterson . ... 148 145 120- 413 brenner was high with 204-234nadiens, divisional leaders of the Ridlbauer . ... 204 155 185-544 National Hockey league, still are the favored teams, the Boston Bruins are threatening to become very dangerous customers by the time of the playoffs next month. The Bruins whipped the New

York Rangers, 3-2 last night to accomplish two important feats. With one game in hand, they tied the Rangers for second place in the American division. They also broke a home-rink losing streak that had lasted since Jan. 3, when they defeated the Rangers by the same count.

Last night's other game saw a league record that will be hard to heat established as the Canadiens whipped the last-place New York Americans 2-1. Nels Stewart, vetcran American center, scored the 271st goal of his long career. That H put him one up on Howie Morenz, the injured Canadien center, Only Bill Cook, whose career with the Rangers is virtually ended, is within 50 goals of this par and there's a chance Morenz may never play again,

# CORRECT

OF BUMPING A FRIEND'S CAR

TO START IT

YOUR car that is going to do the pushing should be in LOW gear.

The car ahead that you are going to push should be in HIGH gear, with the clutch pedal DOWN.

If possible, get in position where one side of the car behind is about in line with center of the car ahead. This helps if bumpers lock. Car with bumper on top should try to get over the edge of a curb or other high spot that lifts bumper and permits parting. Or the same thing can be accomplished if car with bumper on bottom is maneuvered to a low drain or other depression in the street.

Tell your friend not to let his clutch pedal up until you actually have his car MOVING.

At best this is hard on your car, but it is a friendly act that you would not deny a fellow motorist marooned by cold. He has troubles enough of his own . . . with a freshly-killed battery . . . flooded engine . . . and sheepish feeling-to say nothing of wasted gasoline.

If you push long enough his engine may finally start, just as it would have done in the very first place, on Special Winter Blend Conoco Bronze—the same sort of Winter friend that you are. Continental Oil Company
